

Preschool Make & Take

Fall Quarter, 2017

We Learn God Keeps His Children Secure

Sending lesson reinforcement material home with a learner provides opportunities for parents to strengthen Bible knowledge their child learns in church. Sometimes, the material will require a skill that will challenge the child's muscles and coordination. Do not expect success every time. However, as you encourage him to do the activities and offer help when needed, he will enjoy trying again. Scribble coloring is characteristic of children of this age. Encourage them with positive comments because they enjoy simply seeing color appear on the picture from their efforts. Have stickers from the center pages available.

Lesson 1, September 3, 2017 Noah Accepted God's Will

The boy and girl in the picture are playacting the story with a block of wood and toy animals. Your learners will enjoy doing that, too. Give a sticker for each child to add to his picture. Ask questions about details in the picture. Are the boy and girl obeying God when they play together? They are kind to one another. The Bible says, "Be kind."

Lesson 2, September 10, 2017 Job Accepted God's Will

Loving Jesus back is how we worship Him. Color the picture and add the flower stickers. Option: make a touch-and-feel picture by adding silk blooms to the flowers. A stem of small, artificial flowers is an inexpensive but meaningful addition to children's art. Add small pieces of fabric to Jesus' garment and yarn to the hair.

Lesson 3, September 17, 2017 Gideon Accepted God's Will

The children may color the picture before adding the stickers of the boy and girl. Accepting God's will for a little child means obeying Him by praying and obeying parents.

Lesson 4, September 24, 2017 Elijah Accepted God's Will

Sing the rhyme while learners add their stickers to the pictures. Emphasize how God provides the food they eat. God is good to give us food that makes our bodies grow strong and healthy. We should always pray to thank God for our food before we eat.

Lesson 5, October 1, 2017 The Baby in the Basket

Allow time for learners to study the picture to find the five hidden baskets. Let them color over each basket they find. Who is the girl hiding in the grass? Who found the baby in a basket? What did the princess name the baby when he came to live with her as her little boy?

Lesson 6, October 8, 2017 Moses and the Burning Bush

Ahead of time, cut out the figures. Provide a lunch-size paper sack, crumpled newspaper and a cardboard tube for each child to complete the project. Open the sack folds. Add glue to the back of the figures and attach to opposite sides on the sack. You may use two sacks if you prefer. Stuff the sack loosely with crumpled newspaper. Insert a cardboard tube and tape the edge of the sack to it. Then tie the opening of the sack around the tube. Encourage learners to role-play the story with their sack puppets.

Lesson 7, October 15, 2017 Moses Helps God's People

Read the story aloud while learners look at the pictures. This incident actually happened and vividly illustrates the bad results that follow disobedience. Use voice variations to maintain interest for very young children. After reading, ask learners to choose which picture shows Brian obeying. Give them the happy face sticker to put on that section.

Lesson 8, October 22, 2017 The Crosswalk in the Sea

Prepare this project ahead of time by making all scissor cuts needed. In class, show how and help little hands to fold each numbered corner over the dot in the center. Push a pin through all four points and into

the side of a pencil eraser. It should hold securely but not protrude through the eraser. Show how to blow gently to make the pinwheel turn. A small electric fan turned on low will help produce wind. Talk about the strong wind God used to divide the sea for Israel to walk across.

Lesson 9, October 29, 2017 **Food from the Sky**

Most young children like having their very own book. This booklet teaches about food that God gives us to enjoy. Trim away the border and cut across the middle. Stack the pages so that numbers are in the correct order. Fold to make a booklet and staple in the middle. Add the little girl sticker. Let each child look at the pages as you talk about the variety of foods pictured.

Lesson 10, November 5, 2017 **David and the Giant**

The children pictured on this project page are letting God help them do things that please Him. There are many things that very young children can do to help others. Focus on the joy there is in being part of a happy family who help each other. Give one sticker at a time and show learners your completed copy to help them position the sticker where it belongs. Read the words under each picture and let learners repeat the Bible words with you.

Lesson 11, November 12, 2017 **Three Friends in the Fire**

The idea of standing alone is taught through the way the sticker will stand upright on the project page. Everyone else bowed to the image the king made. The three Hebrew friends of Daniel refused to bow to anyone except the true God. Cut out the figure with backing and peel off only the bottom panel of the sticker and fold it forward so that it will stand.

Lesson 12, November 19, 2017 **Daniel and the Den of Lions**

Daniel's habit of praying three times every day needs to be imitated in our day. Stress the importance of praying often. Talk about the first picture. What time of day is it when you get out of bed? Add the morning sticker showing the sun coming up. We talk to God in the morning to begin our day right. We pray before mealtimes to show thanks to God for giving us good food. Add the noon sticker. We like to talk to God before we go to bed at night because we love Him. We ask His same protection throughout the night as He gives during the day. Add the nighttime sticker.

Lesson 13, November 26, 2017 **The Beautiful Queen**

Probably every child knows the feeling of being left in an unfamiliar setting whether it is the first day at church or some other situation. If you have holiday visitors today, make a special effort to make them feel comfortable, loved and completely at ease in your classroom. Even children who come regularly need the attention of loving adults who assure them of God's love through their actions. Guide conversation as every learner colors the picture. Then, give the sticker to add to the page.

Extra Project. Use this color page anytime during the quarter when you need an extra activity. To make it special fun, provide watercolors and brushes or watercolor markers for learners to use on it.

Certificate. Write the information on the certificate ahead of time. Have a little ceremony to award the certificates to those who have been in class regularly this quarter. Let each child walk to the front to get his certificate after you say the name.

Noah loved God.
He built a great big boat
called an ark.

I love God.
I will obey God.
I will do what He says.

Jesus is with me all the time.
When bad things happen, He is with me then.
I know He will always help me.
I love Jesus!

I learn to
obey.

Thank You, God,
for my family.

Help me learn to obey You
every day.

Sing to "Farmer in the Dell" tune.

God gives me food to eat.
God gives me food to eat.
I know God takes good care of me.
He gives me food to eat.

God gives me water to drink.
God gives me water to drink.
I know God takes good care of me.
He gives me water to drink.
