

# Primary Make & Take

## God's Love and Power

Summer Quarter, 2009

Children learn more by personal involvement in the lesson. That is the purpose for these lesson-related projects for learners to make.

Here is a time-saving tip that will make you happy all quarter. Start with thirteen file folders and label them Lesson 1 through Lesson 13. Remove the cover from all make and take books.

Remove all the sticker pages from the center of the books and place in a file folder. Open a book at the centerfold and use a paper cutter to cut half of the book's pages along the perforation line. Turn the book and cut the pages of the other half in the same way. Repeat this for all the books. Then separate and stack the pages by lessons. Save the back cover and put in with Lesson 4 folder. File each lesson by number in the file folders.

Weekly preparation time is greatly reduced with this preparation.

1. Cut out and color square.
2. Fold (forward) in half to make a triangle. Open. Fold (forward) in half the other way to make another triangle.
3. Cut along solid line.
4. Fold triangles to make a pyramid. Glue the bottom triangle over the unprinted triangle.
5. Color and cut out the add-on figures. Fold tabs back. Glue the tab sections over the rectangles on the bottom triangles to make a stand-up scene.
