

Preschool Make & Take

Spring Quarter, 2018

TIMESAVER TIP: If you have access to a paper cutter, cut the pages from this book on it. Open to the middle, remove the sticker pages and cut the two sides along the perforation lines. Do the same for each project book. Separate the pages of each book by lesson number and put all pages in a file folder. Add the Bible stories leaflet and visuals for each lesson to the folders. File them, identified on the index tab by lesson number, in an expansion folder. Place stickers in a separate file folder and file in the expansion folder.

**Lesson 8
may be used
for the
Easter lesson
on April 1.**

Attendance Poster

Make a band of the individual attendance posters on a wall. Each week a learner is present he may add a sticker to his poster. The completed poster is an attractive award he can share with his family by displaying it on the refrigerator or family bulletin board. Write learners' names on them ahead of time so that they are ready to use when the first learners arrive. Give each learner present the same sticker. Posters will remain in place throughout the spring quarter.

Lesson 1 March 4, 2018 The Kind Stranger

Talk about being a "good neighbor" as the children color the picture. What can they do if they see someone get hurt while playing? (Call an adult for help, talk kindly to the hurt one, help a fallen child to his feet again.) Help learners see that being a good Samaritan is being kind to anyone who needs something we can give.

Lesson 2 March 11, 2018 The Hiding Place

Kindness is a character trait children need to develop early in life. Showing kindness is a lifestyle for people who love God and want to live like Jesus. Learners may show kindness as they color the picture and talk to one another. Ask them to name ways they can be kind in their families.

Lesson 3 March 18, 2018 Dorcas Helps Others

There is a story to be learned from the picture to color for project 3. Ask learners to tell what they think it is. Use watercolor paints and brushes for this project. Add the sticker after the learner finishes painting. The picture reminds us to be kind to those in our

families and to friends whom we visit or who visit us. Children help parents when they play with little brothers or sisters. They can show they love Jesus by being kind to others.

Lesson 4 March 25, 2018 David Returns Kindness

Little boys and girls like having their own books. Each page of this booklet shows a way children can be kind. Trim the border from the page. Cut across the page to make two sections. Stack them so the pages are in order. Fold and staple. If you have several projects to prepare, use a paper cutter to trim borders and cut across the pages of all of them, or stack the pages and cut with sharp scissors.

Lesson 5 April 1, 2018 Stephen Forgives His Enemies

Let learners use a washable marker to color the butterfly picture. Add stickers last. Pretend to be butterflies fluttering here and there. Feel the freedom of movement as you move about. Forgiving others of wrongs makes us feel happy inside like the butterfly looks as he flies around.

Lesson 6 April 8, 2018 The Twin Brothers

God's Word encourages turning the hearts of fathers to the children and the hearts of the children to their fathers. (See Malachi 4:6.) This picture to color shows a father reading the Bible to his little girl. Maybe he is helping her understand that Jesus wants us to forgive one another. Scribble coloring is normal for preschoolers. They enjoy seeing the color appear on the page. Ask questions to involve learners in discussing the picture and the life application of the lesson.

Lesson 7 **April 15, 2018**
A Father Forgives His Son

Invite each child to think of a story about the picture. Is the father forgiving his son for something wrong the little boy did? Children may not want to say “I am sorry” to parents or grandparents. Help them understand that is the way to receive forgiveness and make things right between them.

Lesson 8 **April 22, 2018**
Jesus Forgives Those Who Crucify Him

Provide watercolors and brushes or cotton swabs to paint this picture. Fill Styrofoam egg carton cups about half full of water for rinsing brushes to change colors. Help each child learn how to use the watercolors to color the page. Sing the words printed on the project pages as learners work. Talk about the importance of forgiving one another to enjoy happiness. Allow pictures to dry a few minutes before adding stickers.

Lesson 9 **April 29, 2018**
Friends Are for Sharing

This is a fun toy to make. Provide thin paper plates and short pieces of yarn to complete the project. Let learners cut on the dotted lines around the figures, or if you cut them beforehand, trim on the solid lines with more detail. Fold to make a double-sided horse head. Place the neck over the folded edge of a paper plate. Staple together. Staple ten 3" pieces of tan, brown or black yarn to the opposite end for the tail. Open the round edges and set on a flat surface. Touch lightly to make it rock. Ask each child to share the toy with someone as Jonathan shared something special with his good friend David.

Lesson 10 **May 6, 2018**
Sharing Does Not Empty the Barrel

Peanut butter and toast may be a favorite food of your children. Add the sticker after learners color the picture. Fold along the line of the table edge to make a stand-up picture. Can you share peanut butter on toast squares as an object lesson?

Lesson 11 **May 13, 2018**
Sharing Makes Happiness

Preschoolers usually have a natural tendency to be possessive and selfish. This quarter of learning helps them see beyond themselves to others who need their kindness, forgiveness and sharing. Toys are perhaps the most readily accessible things they have to share. This toy, like project 9, is a sharing idea. Share it with a friend to make it more fun. Cut out the circle and fold along the broken line. Crease and unfold. Learners will use the crease line to refold the circle themselves. Give each a sticker. Cut out the sticker with the backing attached. Carefully cut and remove only the backing from the bottom part of the extended base of the sticker to attach over the circle. The rock-a-long toy is fun to use as it tips back and forth with gentle nudging.

Lesson 12 **May 20, 2018**
Sharing Life

Elisha’s miracle of raising the boy back to life is not something anyone can do today. Pastors share God’s Word to help us know about God’s love. This stand-up project reminds the learner that pastors are workers with God. Let learners scribble color the picture and add the sticker. Help younger learners use scissors to cut out the figure. Older learners may need help, but some will probably be able to cut by themselves. Fold back the side panels, crease and open out to make the project stand.

Lesson 13 **May 27, 2018**
Sharing with Jesus

This project is a Bible story reminder. Review the details of the Bible story as learners color the page. Ask the questions printed on the page to prompt thinking.

Award Certificate

Having an award time will add importance to children’s attendance. Give a certificate to each child who shows a kind, forgiving and sharing spirit after participating in these lessons about making friends. Have information written beforehand.

Name _____
Attendance Poster

“Be ye kind one to another.” Ephesians 4:32

Jesus wants us to be a “good neighbor” to anyone who needs our kindness or help. Who is being kind in this picture to color?

How is this girl being kind to her baby sister?
How will you be kind in your family?

“I will help thee.” 1 Chronicles 19:12
